

 HealthComp

# Lower Costs & Simplified Care

Health plan administration offered by HealthComp is an industry-proven solution. We are dedicated to helping you find the health plan and ancillary products that improve the health of your members, lower the cost of access to quality care and simplify the experience for everyone. We focus on improving the health of our member populations through our clinical care management programs, lowering the cost of access to quality care, claims management, and proprietary analytics, and simplifying the care management experience by offering members and partners single-contact solutions and an easy-to-use online experience.

We want to be a partner for life, delivering affordable plans and compassionate service, providing the best outcomes possible for as many members as possible.

## HealthComp combines high-touch service and leading technology to deliver proven results

### Integrated Member Experience

Omnichannel engagement approach that fosters an intuitive experience

### Data at Your Fingertips

Self-service, real-time dashboards with drill-down analytics – for free

## About us

Operating since 1994, we're a leading third-party administrator (TPA) committed to providing customized, full-service offerings including, but not limited to, medical, dental, vision, COBRA, HIPAA, Flexible Spending Accounts, and Reference-Based Pricing. We work to provide innovative and affordable solutions that improve the experience and quality of healthcare for members, clients, and providers. We envision HealthComp as a leading provider of solutions in a world where everyone has access to affordable healthcare that improves their quality of life and lived experience.
